Technical

Q #1 | Multiple Choice Type | Award: 1 | Penalty: 0.33 | Databases

Suppose the minimum and maximum values for the attribute income are $\$12,000$ and $\$98,000$, respectively. We would like to map income to the range $(0.0, 1.0]$.
What is the result of the min-max normalization for an income of $\$73,600$?

A. 0.716

B. 0.63

C. 0.85

D. 0.75

Your Answer: | Correct Answer: A | Not Attempted | Time taken: 00min 03sec | Discuss

Q #2 | Multiple Choice Type | Award: 1 | Penalty: 0.33 | Databases

Let the minimum, maximum, mean and standard deviation values for the attribute income of data scientists be ₹46000, ₹ 170000, ₹ 96000, and ₹ 21000, respectively. The z-score normalized income value of ₹ 106000 is closest to which ONE of the following options? 0.217 0.476 0.623 2.304

Your Answer: | Correct Answer: B | Not Attempted | Time taken: 00min 00sec | Discuss

Q #3 | Multiple Choice Type | Award: 1 | Penalty: 0.33 | Databases

A community is considering building a new skateboard park, and wants to survey people's opinions. Younger people might have a different opinion about the skateboard park than older people, so, to ensure that each age group is properly represented, separate simple random samples are taken from the different age groups, and the results are combined. What is this sampling method called?

A. Cluster sampling
B. Stratified sampling
C. Simple random sampling
D. None of the Above

Your Answer: | Correct Answer: B | Not Attempted | Time taken: 00min 00sec | Discuss

Q #4 | Multiple Select Type | Award: 1 | Penalty: 0 | Databases

Which of the following is/are holistic measures in data warehousing?

A. Median
B. Count
C. Mode
D. Rank

Your Answer: | Correct Answer: A;C;D | Not Attempted | Time taken: 00min 00sec | Discuss

Q #5 | Multiple Choice Type | Award: 1 | Penalty: 0.33 | Databases

Which data warehouse schema consists of multiple interconnected fact and dimension tables?

A. Star Schema
B. Snowflake Schema
C. Constellation Schema
D. None of the above

Your Answer: | Correct Answer: C | Not Attempted | Time taken: 00min 00sec | Discuss

Q #6 | Multiple Choice Type | Award: 1 | Penalty: 0.33 | Databases

Consider discretizing a continuous attribute whose values are listed below:

$$3, 4, 5, 10, 21, 32, 43, 44, 46, 52, 59, 67$$

Using equal-width partitioning and four bins, how many values are there in the first bin (the bin with small values)?

A. 1

B. 2

C. 3

D. 4

Your Answer: | Correct Answer: D | Not Attempted | Time taken: 00min 00sec | Discuss

Q #7 | Multiple Choice Type | Award: 1 | Penalty: 0.33 | Databases

Consider the following sorted data:

$$\{3, 6, 12, 19, 24, 27, 33, 35, 42, 48\}$$

What will be the result of applying Equal-Width Binning by dividing the range into 3 bins?

A. $\{3, 6, 12\}, \{19, 24, 27\}, \{33, 35, 42, 48\}$
B. $\{3, 6, 12, 19\}, \{24, 27, 33\}, \{35, 42, 48\}$
C. $\{3, 6, 12\}, \{19, 24, 27\}, \{33, 35, 42\}$
D. $\{3, 6, 12, 19, 24\}, \{27, 33, 35\}, \{42, 48\}$

Your Answer: | Correct Answer: A | Not Attempted | Time taken: 00min 00sec | Discuss

Q #8 | Multiple Choice Type | Award: 1 | Penalty: 0.33 | Databases

What is the probability of selecting a sample $\{u_1, u_2, \ldots, u_n\}$ from the population $\{u_1, u_2, \ldots, u_N\}$ using simple random sampling without replacement?

A. $\frac{1}{N^n}$

B. $\frac{n}{N}$

C. $\frac{1}{\binom{N}{n}}$

D. $\frac{n!}{N!}$

Your Answer: | Correct Answer: C | Not Attempted | Time taken: 00min 00sec | Discuss

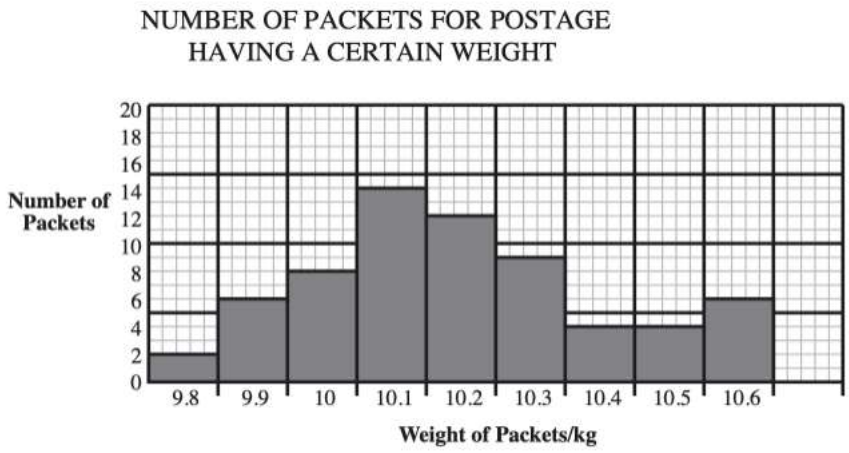

Q #9 | Multiple Choice Type | Award: 1 | Penalty: 0.33 | Databases

Trying to better understand wildlife health, a government agency randomly selects 100 parks and contracts rangers at these parks to catch and examine 20 random animals in each. This is likely an example of which kind of sample design?

A. Simple Random Sample
B. Stratified Random Sample
C. Cluster Sample
D. None of the above

Your Answer: | Correct Answer: C | Not Attempted | Time taken: 00min 00sec | Discuss

Q #10 | Numerical Type | Award: 1 | Penalty: 0 | Databases

What is the frequency of the median weight?

A. 7
B. 8
C. 12
D. 14

Your Answer: | Correct Answer: C;12 | Not Attempted | Time taken: 00min 00sec | Discuss
