Grading Rubric - DSA Assignment 1

Question 1 (Binary Search) - 10 points total:

- Explanation of algorithm logic (4 pts)
- Correct time complexities stated and justified (O(1) best, O(log n) average/worst) (3 pts)
- Correct pseudocode implementation (3 pts)

Question 2 (Arrays vs Linked Lists) - 10 points total:

- Memory allocation comparison (contiguous vs scattered) (2 pts)
- Insertion/Deletion complexity comparison (3 pts)
- Access complexity comparison (3 pts)
- Overall clarity and understanding (2 pts)
